

Wingfoot Locations

These Wingfoot and Pilot (operated by Wingfoot) banks have been put in place to reduce your inconvenience when you have a **trailer tire problem**. **You will not need to call SEM when you use these banks**. If your tractor has a damaged or punctured tire SEM can take care of that problem. SEM will not replace tractor tires for wear unless that bank has been specifically designated as your tractor tire service point. Use the OC network for tractor tires.

Wingfoot leadership is aware of our replacement stances and has been told that failure to follow our stances will put at risk our relationship with Goodyear, the parent of Wingfoot. Wingfoot will not replace trailer tires that do not meet emergency replacement stance of 1/32nd or less.
